

Angels On Assignment

by Charles & Frances Hunter
as Told by Roland Buck

“I am placing this amazing true story on the Internet for **all to read** for several reasons. First, I had and still have the same impression as Charles Hunter did about these messages from angels that "the entire world needs to hear them." Apart from the Word of God, the Bible, this book is the most inspirational story I've ever read. Twenty three years after I first read about the angel Gabriel's 27 visitations with Pastor Buck, and in 1980 visited the very church Roland Buck had pastored, I am still as moved and touched by it today as I was back in 1979. And since this book came out before there ever was such a popular communication tool as the Internet, I think it's time that the message take on new form (wings) on the WWW (world wide web), in the hopes that yet another person will be transformed by these incredible messages brought to us by special messengers straight from God's heart! Webmaster Houston, TX (July 2002)”
